5 Pre-existing medical conditions

Pre-existing conditions are medical conditions for which one or more symptoms have appeared at some point during your or your dependants' lifetime. This applies regardless of whether you or your dependants sought any medical advice or treatment.

We would deem any such condition to be pre-existing if we could reasonably determine that you or your dependants have known about it. Your policy will cover pre-existing conditions unless we tell you otherwise in writing.

We will also treat as pre-existing any medical conditions that arise between the date you complete the Application Form and the later of the following:

· The date we issue your Insurance Certificate, or

Have you used any form of tobacco in the past

year? If yes, how much per day on average? 1 cigarette = 1 unit, 1 medium cigar = 2 units, 1 gram roll-your-

The start date of your policy.

Pre-existing conditions will be subject to full medical underwriting and if they are not disclosed, they will not be covered. Therefore, it is important that in the periods outlined above, you inform us if there is any change to your and your dependants' health status or to any material facts (facts likely to influence our assessment and acceptance of this application). In addition, you will need to provide further information, if requested.

If you already have one of our healthcare plans and are applying for a cover upgrade or for a new policy, please tell us about any medical conditions you have claimed for since joining us.
